Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 and 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 5,572,950 to O'Rourke.

O'Rourke '950 teaches Applicant's claim limitations including : a "rim" ("adapted to be disposed on the first member") - upper as shown in Fig 15 including thickened vertical portion just above 58, "having a "top wall" - the horizontal wall including 58, and a "side wall" - the thickened vertical wall integral with side of lid 16, the "top wall including an aperture" - 58, "including a rib" - the portion projecting away from the horizontal wall portion in a direction outwardly and downwardly away from the lid, a "rim" ("adapted to be disposed on the second member") - lower flange as shown in Fig 15, "including a top wall" - the generally horizontal wall wherein part 38 projects, a "sidewall, the overhanging portion distal from lower portion 14 wall, "having a rib extending therefrom" - 38.

Allowable Subject Matter

3. Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Pat. No. 2,744,650 to Woessner.
